

GLOBAL PROTECT VPN INSTALL AND LOGIN

Click the **Windows start tile** in the lower left corner of the task bar.

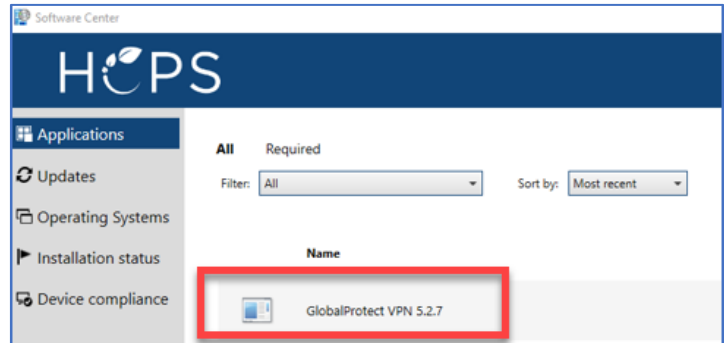

Start typing **“Software Center”** and when the menu item is presented, click on it.

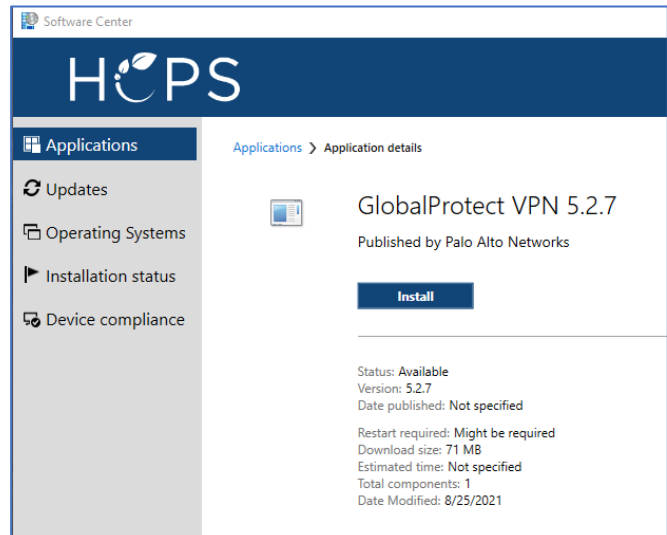

Once Software Center opens, click on:

“GlobalProtect VPN 5.2.7”

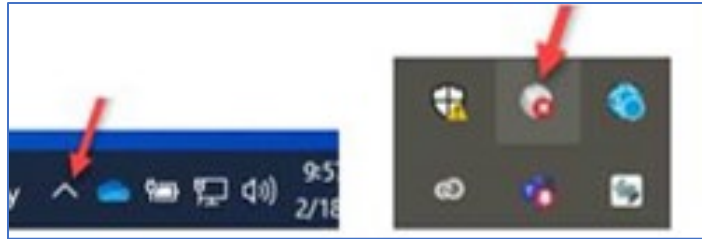

Click **Install**.

GLOBAL PROTECT VPN INSTALL AND LOGIN

Once the software is installed, click the **Hidden Icons** button on the task bar; you will see a gray **Globe icon** in the panel.

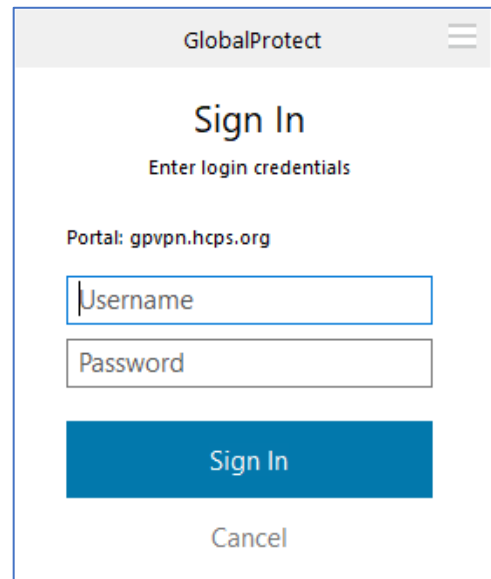

Click on the **Globe icon**.

When prompted, sign in with your HCPS username [**3/7 login** – *do not include @hcps.org*] and current HCPS password.

Click **Sign In**.

To access secured programs/applications, login to Global Protect is required each day.

If connection is unsuccessful, reboot your computer, and try again.

A screenshot of the GlobalProtect application window. The title bar says 'GlobalProtect'. The main content area is titled 'Sign In' with the subtitle 'Enter login credentials'. Below this, it shows 'Portal: gvpn.hcps.org'. There are two input fields: 'Username' and 'Password'. At the bottom, there are two buttons: 'Sign In' (in a blue box) and 'Cancel'.
