BOARD OF EDUCATION OF HARFORD COUNTY

INFORMATIONAL REPORT AND PRESENTATION ON 2023 ENROLLMENT PROJECTIONS

December 4, 2023

Background Information:

Each year the Superintendent prepares a report that contains an analysis of actual and projected enrollment relative to state-rated capacity for each school. Based on an analysis of the September 2023 enrollment and capacity data, projections were developed for each of the 54 public schools in Harford County. Representatives from the Harford County Department of Planning and Zoning provided input and an interpretation of this year's enrollment information. All enrollment data presented represents the actual headcount with no adjustment for half-time prekindergarten students.

Discussion:

The data revealed that the September 2023 total enrollment was 38,106. This figure equates to 39 more students when compared to last year's enrollment. The elementary school enrollment was 17,858 (65 more students), the middle school enrollment was 8,493 (60 less students), and the high school enrollment was 11,391 (53 more students). These enrollment totals include the 139 students enrolled at the Harford Academy and 402 students enrolled at the Swan Creek School eLearner program and 87 students enrolled in the alternative education program. Last year's total enrollment projection for 2023 was 38,357; actual enrollment was 251 students less than projected (~0.7%).

This presentation will review the data and process of developing enrollment projections. It will provide information on School capacities and development within the County. The data will be provided to the County and State to be utilized for planning purposes.

Superintendent's Recommendation:

The Superintendent of Schools recommends that the Board of Education accept this informational report and presentation of the 2023 Enrollment Projections.

⁴ Alternative education are the schools offering programs of study with specialized instruction outside of the traditional educational setting. Due to the nature of the programs offered, enrollment and capacity is based on ability to meet students' individual needs.

Harford County Public Schools 2023 Enrollment and Projections

Presentation to the Board of Education on December 4, 2023

Enrollment Projection Guidelines

- Managing and Utilizing
 Student Records and School
 Program Assignment Data
 Procedure
- Requirements
 - State
 - Local
- Process Timeline

Student Enrollment Projection Action Items	Date
Official date used for student enrollment data	September 30
Technology forwards enrollment data to Facilities Planner	Mid October
Enrollment Projections forwarded to Board of Education	November
Draft Enrollment Projections forwarded to the HC Department of Planning and Zoning and presented to the HC Adequate Public Facilities Advisory Board	November
Enrollment Projections submitted to the HC Department of Planning and Zoning	December 6
Enrollment Projections submitted to Maryland Department of Planning	April 1
Data is used for development of Educational Facilities Master Plan (EFMP) and Capital Improvement Plan (CIP)	May - August

Birth data from the Maryland Department of Health and Mental Hygiene

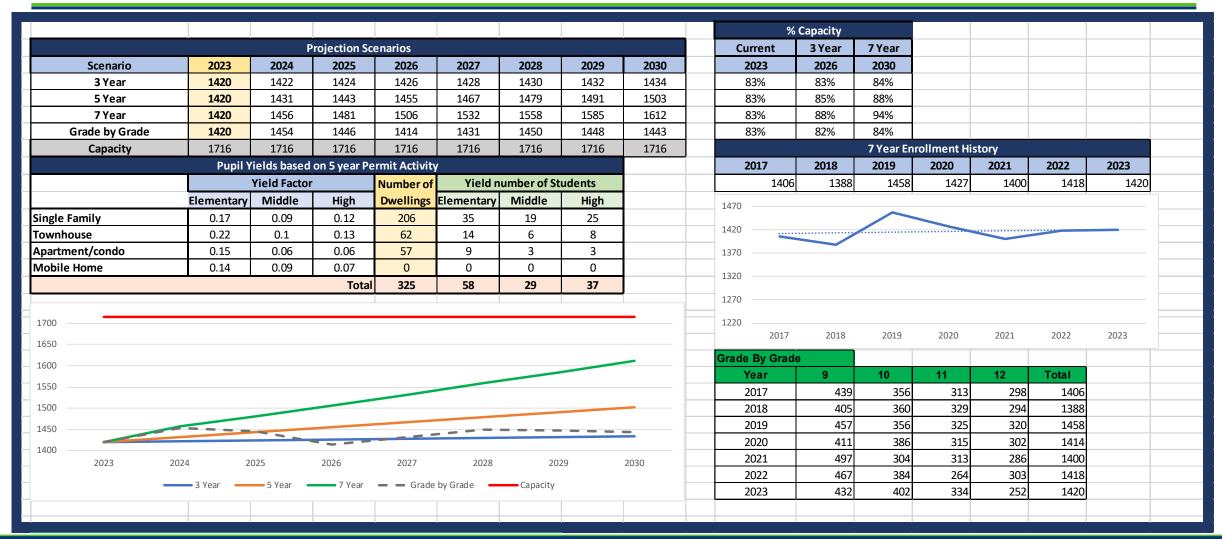

Data for Analyzing Trends

- Program data adding or moving a program
- Entries or withdrawal data
- Development data
 - County Annual Growth Report
 - Development Advisory Committee
 - Conversations with Town Planning Department
 - Contact sales representatives
- Prior year projected enrollment to actual
 - Where were the largest deviations?
 - What was the cause of error?
 - Can it be prevented in the future?

2023 Elementary School Capacity

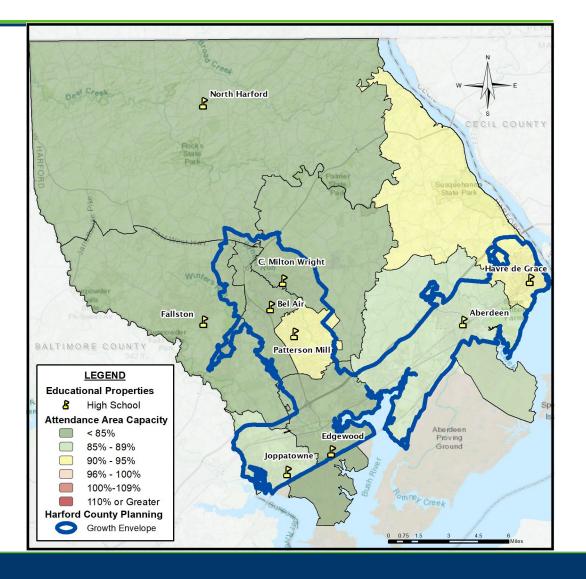

2023 Middle School Capacity

2023 High School Capacity

Monitoring Capacity Concerns

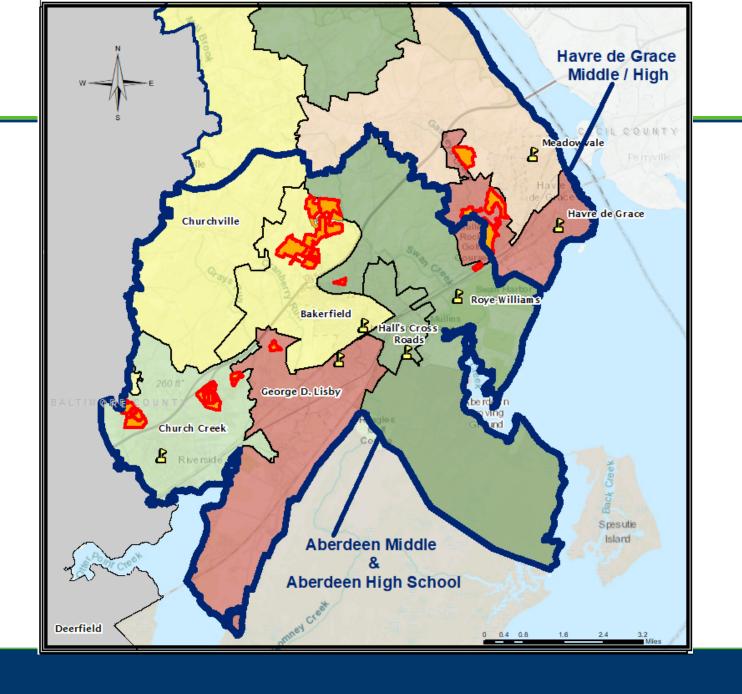

- State rated capacity vs actual space for programs and support
- Adding PreK
- Adding Programs
- Support services
- Development Envelope Still area with most concerns
