# BOARD OF EDUCATION OF HARFORD COUNTY <br> INFORMATIONAL REPORT <br> PRESENTATION OF <br> Quarterly Financial Report for the Period Ending March 31, 2023 

May 22, 2023

## Background Information

Each quarter, a series of high-level financial reports are prepared and distributed to the Board of Education and the Board's Audit Committee. These reports are for the third quarter of the fiscal year. The reports are presented on the budgetary basis of accounting.

## Discussion

Included in this report are detailed analyses of revenues and expenditures. Projections to year-end are included. Highlights of this financial information are as follows:

- Revenues - Total revenue received to-date is as expected at $78.2 \%$ of budget.
- Expenditures - Total expenditures are $73.0 \%$ of the appropriation.
- Projected surplus for FY 2023 is $\$ 23.2$ million
- Projected unassigned fund balance for FY 2023 is $\$ 40.9$ million, assuming the same use of fund balance as in FY 2023

## Superintendent's Recommendation

The Superintendent of Schools recommends that the Board of Education accept the Quarterly Financial Report for the Period Ending March 31, 2023.

## INTRODUCTION

Attached is the financial report for the Unrestricted Fund (Executive Summary, Schedules A, B, C, and D) for the third quarter of FY 2023 ending March 31, 2023. The report presents the Statement of Revenues, Expenditures and Changes in Fund Balance for the third quarter and is not audited. The Executive Summary adds a column, "\% to Total Actual," in order to show the relative value of each revenue or expenditure line to the total actual year-to-date revenues or expenditures.

Statements of expenditures by program, budget manager, and school are also presented. In addition, the Statement of Revenues, Expenditures, and Changes in Fund Balance for Food Services and a list of Capital Projects balances are included.

These statements are prepared on the budgetary basis. Budgetary basis statements include open purchase orders charged against the appropriation amounts for that year as legal obligations and exclude other expenditures made on behalf of the Board, including the contribution by the State of Maryland to the State Teacher's Pension Fund. Under generally accepted accounting principles (GAAP), encumbrances are excluded and on-behalf payments are included; therefore, these statements are non-GAAP.

The column "\% Year-to-Date to Budget" may be used as a barometer in your review of these statements. The budgeted amounts received or expended should be about $75 \%$.

## Methods of Projection

Several expenditure projection methods are employed in this process. Generally, revenues are simply extrapolated to yearend.

- Wages are projected based on the most current payroll actual amount paid divided by that number of pays and extrapolated out to the remaining number of pay periods. To the extent that unique circumstances may apply to a specific wage line item, those circumstances are factored into the projection. As an example, coaches' pay occurs just three times a year. Given that the Instructional Salaries category, which is all wages, represents almost $40 \%$ of the budget, it is clear that significant emphasis is directed toward salary projections.
- Other line items are projected based on an annualized amount expended to date through the end of the year but capping the expenditures at the budget amount, unless it is clear the category will be overspent. Overspending may occur for many reasons such as market volatility for fuel and utilities, greater student need for certain supplies, material or equipment, or simply inflationary factors can cause higher-than-planned expenditures. In that case a year-end category transfer will be required so that all state categories are within budget. In many cases, the annualized amount will be less than budget, in which case, the positive variance is recognized.

The closer we get to year-end, the more accurate the projections will be. It is important to note that the projections are calculated in order to alert the Board, Superintendent and staff to potential fiscal problems and actual expenditures are affected by changing circumstances as the fiscal year progresses.

## ANALYSIS

## Unrestricted Fund

## Revenues

Overall, total revenue received to date is within expectation at $78.2 \%$ of the amount projected for the year. Because the County manages its cash distributions to the Board based on the payments we receive from the State, the County portion is typically lower than the State's at the end of the third quarter.

Other Revenue is $98.5 \%$ of budget. Interest revenue, by far, has the largest variance due to the higher interest rates during the fiscal year compared to what was initially budgeted. A $\$ 10.0$ million projection is included in Settlements Health \& Dental due to the withdrawal of funds from the healthcare rate stabilization account during the fourth quarter. It is projected these funds will fall to fund balance.

The timing and amount of payments under the Federal Impact Aid are unpredictable and vary year-to-year, as illustrated in the graph below. Federal Impact Aid is unrestricted funding provided for students of uniformed military parents and parents who work on tax-exempt federal property. As of March 31, we had received a total of $\$ 0.8$ million.

The chart below provides information on revenue received as a percentage of budget for each funding source over the past five years as of March 31.

# Harford County Public Schools <br> Comparative Revenue - Unrestricted Fund Balances as of March 31 

## Expenditures

Expenditures in all categories are within expectations and total $73.0 \%$ of the appropriation, compared to $68.5 \%$ for the same period last year. The categorical view of expenditures as presented within the Statement of Revenues, Expenditures and Changes in Fund Balance with Supporting Schedules A, B, C, and D is the view of expenditures as required by the State. By category, the chart on the following page provides information on the level of expenditures as a percentage of budgets for each of the past five years as of March 31.

A $\$ 10.1$ million savings is expected in expenditures mainly due to healthcare savings of $\$ 8.9$ million. HCPS is well within our budget for the fiscal year but we cannot close the year overspending any of the state categories. Instructional salaries are projected to be over budget $\$ 1.5$ million due to lane changes for our teachers that resulted in unbudgeted salary increases. Student health services is over budget $\$ 0.1$ million due to unbudgeted costs related to nursing substitutes and negotiated nursing stipends. Transportation is over budget $\$ 0.6$ million due primarily to increased fuel costs. Operation of plant is over budget by $\$ 1.7$ million due to increased utilities expense. The savings generated in fixed charges will be used to offset shortfalls in other state categories. These savings are mainly due to the change of the healthcare plan for the medicare retirees. The fixed charges savings will not be available next year as the majority of those savings will be utilized to absorb an increase healthcare premiums.

Harford County Public Schools
Comparative Expenditures - Unrestricted Fund Balances as of March 31

In order to provide alternate views of expenditures, three additional expenditure statements are included--by Program, by Budget Manager, and by School Allocation. These views of expenditures are consistent with the budgeting system used by HCPS.

Statement of Program Budget Expenditures
Spending by program is within expectations with total programs expending approximately $73.0 \%$ of budget-to-date.

## Statement of Budget Manager Expenditures

Budget manager spending for the third quarter is also similar to prior years, with most budget managers spending less than $75 \%$ of budget. Cases of higher levels of expenditures, by percentage of budget, are the result of payments for annual contracts made early in the fiscal year.

## The Statement of School Allocation Expenditures

At $77.4 \%$ of allocation, school and central office spending for the third quarter is lower than in previous years. When reviewing the comparisons, it is important to consider that school leadership may have changed over time and principals have different philosophies about expending allocated funds. Some hold funds until the end of the year; others spend earlier in the year. Neither is wrong; our goal is to ensure that the funds are spent, without being overspent, by year-end. This report is provided to the Executive Directors of Elementary, Middle and High School Performance and is used as part of the evaluation process for building administrators.

## Fund Balance

Fund Balance is accumulated surplus from prior years when revenues exceeded expenditures. Currently, the projected surplus for FY 2023 is $\$ 23.2$ million, down from a projection of $\$ 32.5$ million at the same time last year. Accumulated fund balance on July 1, 2022 was $\$ 64.4$ million; however, $\$ 4.8$ million is assigned to cover expenses in FY 2023, $\$ 4.8$ million is assigned to cover expenses in FY 2024, $\$ 5.0$ was assigned to transfer to the restricted fund in FY 2023, $\$ 5.3$ million was assigned to transfer to capital in FY 2023, $\$ 1.0$ million is assigned to transfer to restricted in FY 2024, \$20.7 is assigned to transfer to capital in FY 2024, \$1.0 million is assigned as a contingency for fuel costs, $\$ 4.0$ million is assigned for device lease payments and $\$ 0.1$ million is attributed to non-spendable instructional and custodial inventory. The assignment for devices is to ensure availability of funds in a future year when revenues are not certain or there are unexpected costs. Current assignments and uses may be found in the chart below. After subtracting all assignments/allocations, the projected unassigned fund balance is $\$ 40.9$ million. Any unassigned fund balance in the unrestricted budget is available for expenses or emergencies in FY 2023 or subsequent years. In addition, funds may be utilized to support capital expenditures and other year-end needs. The projected unassigned fund balance represents $7.1 \%$ of the current HCPS operating budget

## Health Insurance Expenditures and Loss Ratio

HCPS is part of the Harford County Healthcare Consortium along with Harford County Government, Harford Community College and Harford County Public Libraries. The parties are self-insured and a rate stabilization account is maintained, requiring minimum balances to offset any deficits that could occur. HCPS pays premiums monthly to Carefirst and Carefirst pays claims, as required. An annual reconciliation occurs where paid claims are compared to premiums paid to determine whether a surplus or deficit exists. As of June 30, 2022 the rate stabilization account had a balance of $\$ 22.0$ million. Each entity is required to maintain a balance in an amount equal to its call amount based on the premium due and payable to the vendor for the health care plan for the applicable year. The call amount is defined as no less than $5 \%$ of an entity's annual premium. If an entity's share of the rate stabilization monies exceeds 1.5 times the amount of the call amount, the entity may withdraw from the rate stabilization account the excess amount or any portion thereof. If an entity incurs a net loss for any plan year, the entity will pay to the rate stabilization account an amount up to the entity's call amount.

The settlement of claims for FY2022 occurred in November 2022 and resulted in a refund to the HCPS portion of the rate stabilization fund in the amount of $\$ 5.9$ million. The total estimated premiums for FY2024 are approximately $\$ 95.0$ million, resulting in a minimum call amount of approximately $\$ 4.8$ million. HCPS is able to withdraw any portion of the rate stabilization balance in excess of $\$ 7.1$ million. The current balance in the rate stabilization account is $\$ 27.3$ million. Given the allowance to withdraw excess funds, HCPS may withdraw up to $\$ 20.2$ million. However, healthcare claims are volatile in nature. Withdrawing the maximum amount allowed could potentially create a deficit in the event of a large call. A deficit creates a two-fold issue. First, the deficit must be paid from the reserve account, and if the reserve balance falls below the callable margin, funds must be replenished by the HCPS operating budget. Second, a deficit indicates that premiums are underfunded and a relatively large rate increase may occur. If these two impacts occur simultaneously, there could be a significant impact to the HCPS budget.

Since the onset of the pandemic, HCPS has left more than the required balance in the account to prevent a future excess call requiring a payment into the account.

For FY 2023, health insurance expenditures are budgeted to be $16.23 \%$ of the school system's total unrestricted fund expenditures and the mid-year projections of health insurance premiums to claims show a small surplus. In order to protect HCPS from unusually high claims within a plan year, HCPS purchases stop-loss insurance on individual claims that exceed $\$ 400 \mathrm{~K}$ during the plan year and aggregate claims in excess of $125 \%$ of estimates. Claims exceeding the stop-loss levels will be removed from our actual experience at settlement.

The chart below tracks the loss ratio for three periods of time: the quarter, the calendar year, and the fiscal year.

Financial Report
Period Ending March 31, 2023

## Food Services Fund

The Food Services Fund is a self-supporting fund that does not receive any Unrestricted Fund support. At March 31, revenues exceeded expenditures by approximately $\$ 0.3$ million.

Revenues are expected to approximate the budget for the year. Expenditures for the fiscal year are $85.8 \%$ of budget. Budgets for the year in food and nutrition approximate the budgets in FY 2020. FY 2023 is the first year of returning to the National School Lunch Program since FY 2020, when that program ended towards the end of year with the state shutdown of schools. Supplies and materials are significantly higher than in previous years due to inflation.

## Capital Projects Fund

Capital Projects Balances as of March 31 are reported for all open projects. These are listed by project category on page 18. In total, there are $\$ 304.4$ million in active capital projects. The graph below provides the percentage of capital funds spent, encumbered and unspent. The balances remaining unspent total $24.6 \%$, or $\$ 74.9$ million.
