

**BOARD OF EDUCATION OF HARFORD COUNTY  
INFORMATIONAL REPORT**

**PRESENTATION ON**

**ADVANCING THE BOARD OF EDUCATION  
STRATEGIC PLAN: 2024-2025**

**September 23, 2024**

**Background Information:**

The Board of Education (BOE) has set three priorities for the 2024-2025 school year: academic achievement, family engagement, safety and school culture. These priorities are extensions of the long-term goals established in the BOE [Strategic Plan](#), which establishes the vision, mission, core values and long-term goals for the school district.

**Discussion:**

This presentation by the Superintendent of Schools, Dr. Sean Bulson, outlines how the administration integrates the BOE Strategic Plan and the Board's stated 2024-2025 priorities into initiatives and daily practice for the school district.

A guiding document developed by the administration, [Advancing the Strategic Plan](#), serves as an implementation framework for the BOE strategic plan and district priorities, integrating performance targets for 2024-2027. Performance targets are reported on annually, with performance baselines established in the [2022-2023 Annual Report](#).

**Superintendent's Recommendation:**

The Superintendent recommends that the Board accept this informational report.
