BOARD OF EDUCATION OF HARFORD COUNTY

INFORMATIONAL REPORT

PRESENTATION OF Quarterly Financial Report for the Period Ending December 31, 2024

February 24, 2025

Background Information

Each quarter, a series of high-level financial reports are prepared and distributed to the Board of Education and the Board's Audit Committee. These reports are for the second quarter of the fiscal year. The reports are presented on the budgetary basis of accounting.

Discussion

Included in this report are detailed analyses of revenues and expenditures. Projections to year-end are included. Highlights of this financial information are as follows:

- Revenues Total revenues received to-date are 52.0% of budget.
- Expenditures Total expenditures are 45.6% of the appropriation.
- Fund Balance FY2025 projected surplus at June 30, 2025 as of December 31, 2024 is \$3.0 million. Unassigned fund balance is estimated to be \$29.3 million, prior to any FY26 fund balance assignment to balance the budget.

Projected Excess of Revenues Over Expenditures	\$ 3,028,556
Total Fund Balance at July 1, 2024	67,234,736
Assigned for FY 2025 Budget	(30,211,788)
Assigned for emergency fuel	(1,000,000)
Assigned for lease payments for devices	(4,000,000)
Assigned for future health insurance call	(5,000,000)
Non-spendable for inventory	 (734,052)
Assigned Fund Balance at December 31, 2024	 (40,945,840)
Projected Unassigned Fund Balance	\$ 29,317,452

Superintendent's Recommendation

The Superintendent of Schools recommends that the Board of Education accept the Quarterly Financial Report for the Period Ending December 31, 2024.

INTRODUCTION

Attached is the financial report for the Unrestricted Fund (Executive Summary, Schedules A, B, C, and D) for the second quarter of FY 2025. The report presents the Statement of Revenues, Expenditures and Changes in Fund Balance for the second quarter and is not audited. The Executive Summary adds a column, "% to Total Actual," in order to show the relative value of each revenue or expenditure line to the total actual year-to-date revenues or expenditures.

Statements of expenditures by budget manager, and school are also presented. In addition, the Statement of Revenues, Expenditures, and Changes in Fund Balance for Food Services and a list of Capital Projects balances are included.

These statements are prepared on the non-GAAP budgetary basis consistent with Exhibit 7 in the year-end audit report. Budgetary basis statements include open purchase orders charged against the appropriation amounts for that year as legal obligations and exclude other expenditures made on behalf of the Board, including the contribution by the State of Maryland to the State Teacher's Pension Fund. Under generally accepted accounting principles (GAAP), encumbrances are excluded and on-behalf payments are included; therefore, these statements are non-GAAP. In addition, Rate Stabilization Fund activity is not included in budgetary basis statements.

The column "% Year-to-Date to Budget' may be used as a barometer in your review of these statements. The budgeted amounts received or expended should be about 50%; however, this percentage may be higher in certain areas due to payments that are made at the start of the school year for certain contracts and other items needed for the return of students.

Methods of Projection

Several expenditure projection methods are employed in this process. Generally, revenues are simply extrapolated to yearend.

- Wages are projected based on the most current payroll actual amount paid divided by that number of pays and extrapolated out to the remaining number of pay periods. To the extent that unique circumstances may apply to a specific wage line item, those circumstances are factored into the projection. As an example, coaches' pay occurs just three times a year. Given that the Instructional Salaries category, which is all wages, represents almost 40% of the budget, it is clear that significant emphasis is directed toward salary projections.
- For those line items where control can be exercised over the total annual spending, the projection method used
 is not to annualize the amount expended to date through the end of the year but to cap the expenditures at the
 budget. In many cases, the annualized amount will be less than budget, in which case, the variance is recognized.
 This method is used for all objects of expenditures (except wages) in the categories of Administration, Midlevel Administration, Textbooks, Other Instructional Costs, Student Personnel Services, Student Health
 Services, and Capital Outlay.
- Some accounts, such as utilities and fuel, cannot be managed in the same way because of the volatility of the market. In these cases, we annualize the amount expended to date but do not cap the upper limit to the budgeted amount. In these cases, the variances are recognized in the projection, even if negative. This method is used for all objects of expenditure (except wages) in the categories of Student Transportation, Operation of Plant, Maintenance of Plant, Fixed Charges (except those identified as a percentage of wages), and Community Services. Any expenditure categories projected to result in negative balances by year-end will be addressed through an inter-category transfer later in the fiscal year.
- To the extent possible, certain key high value accounts are analyzed and compared with prior year trends after which a projection is made. This method is used for the Fixed Charges and Special Education category accounts, in particular.

The closer we get to year-end, the more accurate the projections will be. It is important to note that the projections are calculated in order to alert the Board, Superintendent and staff to potential fiscal problems and actual expenditures are affected by changing circumstances as the fiscal year progresses.

ANALYSIS

Unrestricted Fund

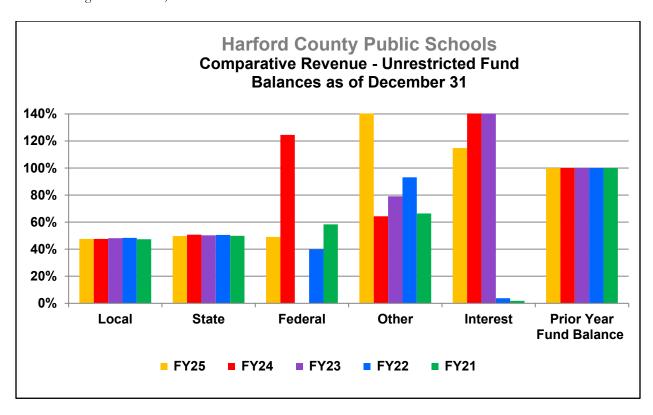

Revenues

As a point of explanation, because Actual Year-to-Date revenue is measured against a full-year budget and we are currently at mid-year, most revenue lines show an unfavorable variance at December 31. This is to be expected. Whereas, Projected to Year-End revenue is used to develop a full-year projected surplus (deficit).

Overall, total revenue received is 52.0% of the amount projected for the year. The County portion of funds received is typically lower than the State's at the end of the second quarter. This is because the County manages its cash distributions to the Board based on the payments we receive from the State.

The projected revenue surplus is \$4.9 million due mainly to the receipt of excess funds in the healthcare rate stabilization account and to interest revenue.

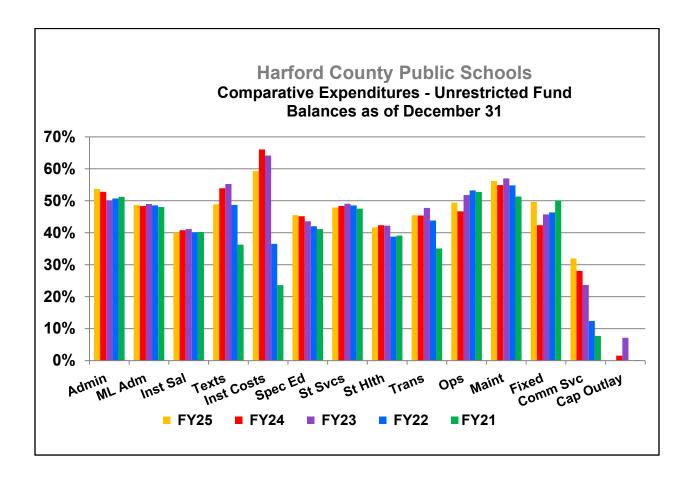

The chart below provides information on revenue received as a percentage of budget for each funding source over the past five years as of December 31.

Expenditures

Expenditures in all categories are 45.6% of the appropriation. The categorical view of expenditures as presented within the Statement of Revenues, Expenditures and Changes in Fund Balance is the view of expenditures as required by the State. By category, the chart on the following page provides information on the level of expenditures as a percentage of budgets for each of the past five years as of December 31.

At this point in the fiscal year, the total projected expenditure is \$1.9 million over budget, or 100.3% of the total budget. Non-public placements are projected to be \$3.0 million more than budgeted and textbook purchases are expected to be \$2 million more than budget. All areas are monitored throughout the year for potential shortfall or surplus. Because spending must be in line with the budget, if the projections continue to show an over-budget scenario, a formal request to appropriate additional revenue will be made in the spring.

Financial Report Period Ending December 31, 2024

In order to provide alternate views of expenditures, two additional expenditure statements are included—by Budget Manager, and by School Allocation. These views of expenditures are consistent with the budgeting system used by HCPS.

Statement of Budget Manager Expenditures

Budget manager spending for the second quarter is also similar to prior years, with most budget managers' spending less than 50% of budget. Cases of higher levels of expenditures, by percentage of budget, are the result of payments for annual contracts made early in the fiscal year. Note: As we continue to adjust to the Oracle system, the actual totals on this report differ from the *Statement of Revenues, Expenditures and Changes in Fund Balance* due to timing of the reports generated.

The Statement of School Allocation Expenditures

At 53.0% of allocation, the percentage of school and central office spending is reasonable at the end of the second quarter. Some hold funds until the end of the year; others spend earlier in the year. Neither is wrong; our goal is to ensure that the funds are spent without being overspent by year-end. This report is provided to the Executive Directors of Elementary, Middle and High School Performance and is used as part of the evaluation process for building administrators.

Fund Balance

Fund Balance is accumulated surplus from prior years when revenues exceeded expenditures. Currently, the projected surplus for FY2025 is \$3.0 million. Accumulated fund balance at July 1, 2024 was \$67.2 million; however, \$30.2 million is assigned to cover expenses in the current year. The additional assignments include the following items: \$1.0 million as a contingency for fuel costs, \$4.0 million as a contingency for future lease payments on student and teacher devices and \$5.0 million as a contingency for a future health insurance call. Assignments may be found in the chart below. After subtracting all assignments/allocations, the resulting projected unassigned fund balance of \$29.3 million is 4.5% of the school system's \$653.3 million unrestricted budget. These funds are available for one-time expenses in FY2025 or beyond. In February, 2025 the Board of Education voted to assign \$10.0 million in fund balance to balance the FY2026 budget. That assignment is not included in the following chart.

Projected Excess of Revenues Over Expenditures	\$ 3,028,556
Total Fund Balance at July 1, 2024	67,234,736
Assigned for FY 2025 Budget Assigned for emergency fuel Assigned for lease payments for devices Assigned for future health insurance call Non-spendable for inventory	 (30,211,788) (1,000,000) (4,000,000) (5,000,000) (734,052)
Assigned Fund Balance at December 31, 2024	 (40,945,840)
Projected Unassigned Fund Balance	\$ 29,317,452

Health Insurance Expenditures

HCPS is part of the Harford County Healthcare Consortium along with Harford County Government, Harford Community College and Harford County Public Libraries. The parties are self-insured and a rate stabilization account is maintained, requiring minimum balances to offset any deficits that could occur. HCPS pays premiums monthly to Carefirst and Carefirst pays claims, as required. An annual reconciliation occurs where paid claims are compared to premiums paid to determine whether a surplus or deficit exists. As of June 30, 2024, the rate stabilization account had a balance of \$9.9 million. Each entity is required to maintain a balance in an amount equal to its call amount based on the premium due and payable to the vendor for the health care plan for the applicable year. The call amount is defined as no less than 5% of an entity's annual premium. If an entity's share of the rate stabilization monies exceeds 1.5 times the amount of the call amount, the entity may withdraw from the rate stabilization account the excess amount or any portion thereof. If an entity incurs a net loss for any plan year, the entity will pay to the rate stabilization account an amount up to the entity's call amount.

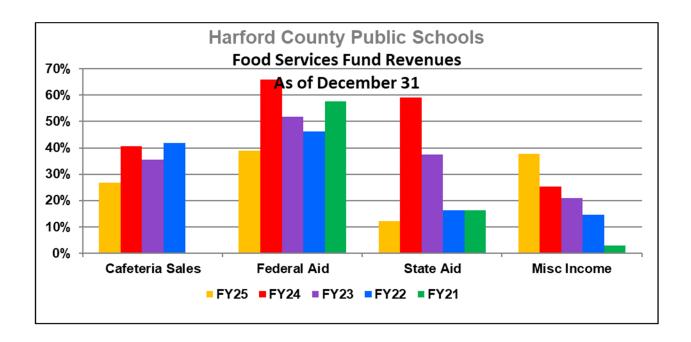

The settlement of claims for FY2024 resulted in a refund to the HCPS portion of the rate stabilization fund in the amount of \$3.6 million. The total estimated premiums for FY2025 are approximately \$110.0 million, resulting in a minimum call amount of approximately \$5.5 million. HCPS is able to withdraw any portion of the rate stabilization balance in excess of \$8.2 million. After the FY2024 settlement, the balance in the rate stabilization account was \$11.6 million, including interest earnings. Any amount up to \$3.4 million is eligible for withdrawal (\$11.6 million less \$8.2 million). Harford County Government forwarded \$3.0 million as a result of the surplus in the account. Healthcare claims are volatile in nature. Withdrawing the maximum amount allowed may create a deficit in the event of a large call. A deficit creates a two-fold issue. First, the deficit must be paid from the reserve account, and if the reserve balance falls below the callable margin, funds must be replenished by the HCPS operating budget. Second, a deficit indicates that premiums are underfunded and a relatively large rate increase may occur. If both of these occur simultaneously, there could be a significant impact to the HCPS budget.

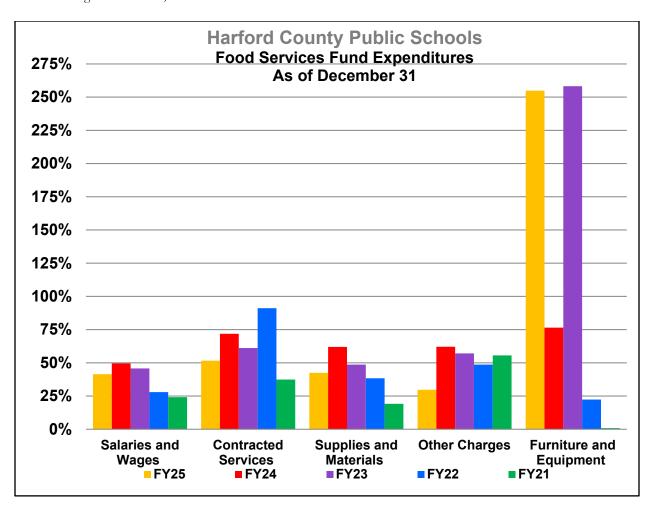

For FY2025, health insurance expenditures are budgeted to be 15.5% of the school system's total unrestricted fund expenditures and the mid-year projections of health insurance premiums to claims indicate a potential deficit. In order to protect HCPS from unusually high claims within a plan year, HCPS purchases stop-loss insurance on individual claims that exceed \$400K during the plan year and aggregate claims in excess of 125% of estimates. Claims exceeding the stop-loss levels will be removed from our actual experience at settlement.

Food Services Fund

The Food Services Fund is typically a self-supporting fund that does not receive any Unrestricted Fund support. Vacant positions will result in savings throughout the year; however, overall labor costs, increased food and supply costs are expected to outpace any savings. The fund will be monitored closely throughout the year. Detail may be found on page 16.

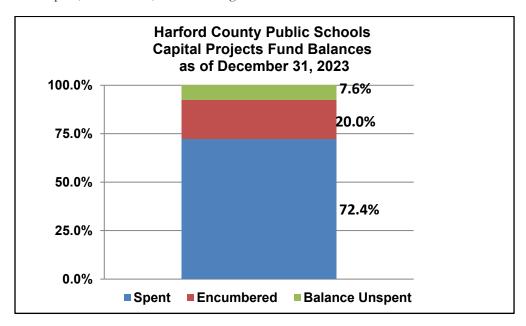

Expenditures exceeded revenues by \$1.5 million at December 31. Revenues represent 50.5% of budgeted revenues and expenditures are at 50.1% of budget.

Capital Projects Fund

Capital Projects Balances as of December 31, 2024 are reported for all open projects and projects spent out. These are listed by project category on the Project Balances – Life to Date Report. In total, there are \$451.5 million in active capital projects, with 7.6% of the balance still remaining. The graph below provides the percentage of capital funds spent, encumbered, and remaining.
