The Elementary Summer School Program is designed for students who struggled to meet grade level requirements during the 2021-2022 school year. The focus will be on mathematics and reading instruction aligned to the Common Core State Standards. Additionally, students will engage in activities to support their social emotional wellbeing as well as participate in movement breaks and camp-like activities. This program is tuition-free, no payment will be required.

If transportation becomes available, it will be provided to those students who choose to attend a site in their home school's region (see chart below). Parents/guardians of registered students will be contacted prior to the start of the program if transportation becomes available.
