HCRASC Collaborates with HCPS Food and Nutrition

HCRASC Hosted HCPS Food and Nutrition During the April General Assembly for a Student Food Tasting Experience

Bel Air, MD — On April 15, 2026, the Harford County Regional Association of Student Councils (HCRASC) successfully hosted a General Assembly at C. Milton Wright High School, bringing together student leaders from across the county for a collaborative and engaging event. The assembly featured a partnership with HCPS Food and Nutrition Services, highlighted by an interactive food taste-testing experience. It also notably included the 2026-2027 Harford County Public Schools Student Member of the Board (HCPS SMOB) Elections.

Before the General Session convened, student delegates had the opportunity to sample a variety of potential menu items and provide direct feedback through a survey on taste, quality, and overall appeal. This initiative allowed students to play an active role in shaping future school meal offerings, reinforcing HCRASC's commitment to elevating student voice in decisions that impact their daily lives.

The collaboration created a productive environment where student input was not only encouraged but actively utilized. Delegates engaged thoughtfully in the process, offering insights that will contribute to more student-centered meal planning across the county.

Kristen Sudzina, Supervisor of Food and Nutrition Services for HCPS, emphasized the value of student involvement, stating, *“The Food and Nutrition Services Department thanks all HCRASC members from across the county for their time, enthusiasm, and thoughtful feedback during today’s taste-testing event, and is grateful to the C. Milton Wright High School team for allowing us to host. This student feedback helps guide our menu planning as we continue to plan future meals that meet student preferences.”*

HCRASC extends its appreciation to HCPS Food and Nutrition Services and the C. Milton Wright High School community for their support in making this event a success. This General Assembly exemplifies the power of collaboration between students and school system departments in fostering meaningful change.

HCRASC remains committed to fostering civic engagement and encouraging student leadership.
