- General Provisions

45.0 IT ACCESSIBILITY PROGRAM

- 45.1 Section 508 of the Rehabilitation Act (29 U.S.C. 794d), as amended in 1998, is a federal law that requires agencies to provide individuals with disabilities equal access to electronic information and data comparable to those who do not have disabilities, unless an undue burden would be imposed on the agency. The Section 508 standards are the technical requirements and criteria that are used to measure conformance within this law. More information on Section 508 and the technical standards can be found at www.section508.gov.
- 45.2 Section 508 requires agencies, during the procurement, development, maintenance, or use of ICT, to ensure that individuals with disabilities have access to and use of ICT information and data comparable to the access and use afforded to individuals without disabilities (i.e., "ICT accessibility"), unless an undue burden would be imposed on the agency. The Section 508 standards are the technical requirements and criteria that are used to measure conformance with the law and incorporate the W3C Web Content Accessibility Guidelines (WCAG) 2.2.

46.0 TECHNOLOGY-BASED INSTRUCTIONAL PRODUCTS

- 46.1 HCPS is committed to ensuring that digital technology (hardware, instructional software, online resources, and computer-based equipment) is accessible to individuals with disabilities. The Vendor guarantees that all digital tools supplied under this contract meet the accessibility requirements of the Web Content Accessibility Guidelines ("WCAG") 2.2 Level AA and conform to the most recent Section 508 standards for information technology accessibility under the federal Rehabilitation Act of 1973. "Digital tool" is defined pursuant to Md. Code Ann., Educ., § 7-910.
- 46.2 All online platforms must conform to the guidelines for accessibility as set forth in the WCAG version 2.2 [W3C WCAG 2.2 Now Available](#) (minimum Level AA conformance). HCPS will only consider vendors whose products conform to these standards. Conformance to the specified standards can be documented through the submission of an up-to-date, complete, and accurate Accessibility Conformance Report (ACR). The ACR must address the leading ICT accessibility standards: Section 508 (U.S.), EN 301 549 (EU), and W3C/WAI WCAG. The ACR must include the latest version of the [Voluntary Product Accessibility Template](#) (VPAT®), which can be obtained from the Information

Technology Industry Council (ITI) website (<https://www.itic.org/>).

- 46.3 For digital tools, vendors are required to submit an accessibility conformance report that includes a Voluntary Product Accessibility Template for any invitation for bids, requests for proposals, procurement contracts, grants, or modifications to contracts or grants. The accessibility conformance report must explain how information and communication technology products, including software, electronic content, and support documentation, conform to the most recent ICT accessibility standards: Section 508 (U.S.), EN 301 549 (EU), and W3C/WAI WCAG. The instructions and the required forms can be found at the General Services Administration (GSA) Section 508 website at <https://www.section508.gov/sell/how-to-create-acr-with-vpat/>.

46.4 **Vendor Notice of Equivalent Access Standards**

In accordance with Md. Code Ann., Educ., § 7-910, “equivalent access” includes the ability to receive, use, and manipulate information and operate controls necessary to access and use information technology, including by nonvisual means, so that a student with disabilities can access the same services as a student without disabilities with substantially equivalent ease of use.

“Equivalent access” includes:

1. Keyboard controls used for input and synthesized speech;
2. Braille; and
3. Other audible or tactile means used for output.

“Nonvisual access” means the ability to receive, use, and manipulate information and operate controls necessary to access information and communications technology through keyboard controls, synthesized speech, braille, or other methods not requiring sight.

46.5 **Accessibility Indemnification and Guarantees**

- 46.5.1 The Vendor agrees to indemnify and hold harmless HCPS from any costs, expenses, liabilities, or obligations arising from accessibility-related issues involving the digital tools provided under this contract. This indemnification includes the defense of any legal action or proceedings alleging non-compliance with federal or State of Maryland accessibility laws and regulations and payment of any resulting liabilities. This clause will survive the termination of the contract.
- 46.5.2 Vendors failing to meet the equivalent access standards established under Subsection (a)(2) of Section 508 of the federal Rehabilitation Act of 1973 or WCAG 2.2 Level AA may face civil penalties set forth in Md. Code Ann., Educ., § 7-910.
- 46.5.3 For all technology based instructional products, online platforms, and digital tools, Vendors must maintain and improve their digital accessibility in compliance with evolving standards and best practices. Vendors will provide a listing of timelines for expected improvements to the programs. Vendors will establish a mechanism for users to report accessibility issues and ensure prompt resolution of reported problems.

46.6 **Third-Party Technology**

The Vendor acknowledges that supplying third-party technology does not exempt the Vendor from ensuring product compliance with this clause. The Vendor bears sole responsibility for determining the accessibility of such technology and must ensure that it can be edited or remediated as necessary to comply with accessibility standards.

47. **FORCE MAJEURE**

- 47.1 A party shall not be liable for any failure of or delay in the performance of this agreement for the period that such failure or delay is beyond the reasonable control of a party, materially affects the performance of any of its obligations under this agreement and could not reasonably have been foreseen or provided against but will not be excused for failure or delay resulting from only general economic conditions or other general market effects.

- 47.2 The list of events to be included is a matter of negotiation between the parties. Such causes may include, but are not limited to, acts of God, nature or the public enemy, terrorism, invasion, insurrection, order of court, judge, or civil authority, strike, stoppage of labor, riot, and unusually severe weather, significant fires, floods, earthquakes, storms, epidemics, pandemics, quarantine restrictions, strikes, freight embargos, government regulation, or governmental authorities, and delays which are not caused by any act or omission.
- 47.3 If either party is delayed by force majeure, the time of contract completion may be extended by contract modification, for a period of time equal to that delay caused under this condition. HCPS may also consider requests for price increase for raw materials that are directly attributable to the cause of delay. HCPS reserves the right to cancel the contract and/or purchase materials, equipment or services from the best available source during the time of force majeure, and Contractor shall have no recourse against HCPS. Further, except for payment of sums due, neither party shall be liable to the other or deemed in default under this contract, if and to the extent that such party's performance of this contract is prevented by reason of force majeure as defined herein.
