

APPLICATIONS ARE OPEN!

2024-25 Maryland Advisory Councils

The advisory councils provide direct input to the State Superintendent of Schools about important issues in Maryland schools. Members participate in discussions with the State Superintendent concerning topics that will lead to improvement of Maryland public schools and the opportunities they afford.

The goal of the councils is to ensure excellent teaching and learning is happening in every classroom in every Maryland school and that teachers and school leaders have the information, resources, and support they need to create successful schools.
